InLine® HDMI to VGA converter cable, 1080p

Art.-No.: 46017I

EAN: 4043718192915

This HDMI to VGA Cable is compliant with HDMI standards and works with both HDCP and non-HDCP sources including: HD-DVD, Blu-ray, TV game console, PC and tablet. The VGA video output supports all resolutions up to 1920 x 1080 progressive scan. This handy converter is small and lightweight and it can easily be hidden behind a monitor and need only a VGA cable (not included in the package) to be connected directly to the display input. The converter consumes only little power directly from the HDMI source, so no external power adapter is needed

- Convert HDMI signal to VGA signal
- Compliant with HDMI
- RGB resolution up to 1920 x 1080 progressive scan (FullHD 1080p)
- HDCP compatible with embedded keys
- Support power over HDMI cable
